

## BREAKDOWN

# STRUCTURE OF THE PREMIUM TIER

This 8-week program is specially created for those wanting to focus on aesthetics, proportions, and symmetry by training in a functional (myofibrillar) hypertrophy style. It utilizes old school training techniques which allow you to develop and build the most aesthetic physique! Hypertrophy & Strength Focused - ONLY FOR THE WORTHY (Intermediate to Advanced Lifters).

Instead of a traditional bro-split or a push pull legs split, this program focuses on working out similar muscle groups each day for maximum output. Essentially a 3-day alternating split consisting of Chest and Back on day 1, Shoulder and Arms on day 2, Legs on day 3, and then a varied workout for the same muscle groups the following three days. Finished off by one day off - a time for your body to rest. Don't overtrain, but also don't force the rest day on day 7. Take rest when you feel you need it or when you are unable to train! The reason I listed each day with a number and not an actual Monday or Tuesday, is because you may not be able to go one day. That would be the time to use it as the rest day even if it is on (for example) a thursday.

## TEMPO EXPLAINED

Most of you will understand what exercises, sets, reps, and rest are. That said, some of you may be unfamiliar with the tempo column in the greek god program. The goal here is to control the tempo (or timing of a rep) of a particular exercise/movement. Controlling the timing will optimize time under tension, allowing the optimal muscle strain for hypertrophy. You will see the tempo shown as three numbers (for example: bicep curls at tempo 1,2,3). The first number is the concentric portion of the rep in seconds like I this example: curling up the weight. The second number is the full contraction part of the rep in seconds (squeeze for two seconds), the third is the eccentric portion of the rep in seconds (lower the weight in three seconds).

## LET'S GET STARTED

Get ready to push yourself to the limits and stay consistent for the next twelve weeks. For the best results, be sure to follow a well-balanced diet. I offer a variety of meal plans on my website with a range of caloric intakes that may suit your needs. If you are interested, be sure to check them out at [alexeubank.com](http://alexeubank.com)

Vision creates faith and faith creates willpower. With faith there is no anxiety and no doubt – just absolute confidence in yourself.
